Aqua Marina has been devoted to creating authentic paddling experience. We encourage you to discover your wonderland and get inspired with our products. We have created vessels to match your needs, equipment that you can carry everywhere with you, technology to keep you safe and give you the freedom to enjoy life.

We want to help you break your boundaries, using equipment that you can trust and live every moment. We haven't found a way to defeat time, but together we can make every moment of it worth remembering.

We understand how important it is for you to be independent. We built vessels easy to take with you everywhere. Feel free, travel, live to the maximum, discover magical places and keep some of the magic in you.

We know that safety is as important as performance. We developed a technology to help you go one-step further and to make your dreams come true. Like you, we haven't chosen the easy path. We have created technology that allows you to travel around the world, to explore every hidden treasure, to experience absolute freedom.

We feel your needs. We adapt and improve the ergonomic-design of our products to live up to your standards. We, in Aqua Marina, want what you want. Every need, Aqua Marina meets up to. Wondrous places are not just a dream anymore. They are the next adventure.

WE LIVE IN A WORLD OF WONDER.

INFLATABLE STAND UP PADDLE BOARD

Aqua Marina has been devoted to creating authentic paddling experience by focusing on every detail of customer needs. With the most valuable inflatable SUP boards on the market, just take a deep breath and start off to EXPLORE EVERY HIDDEN TREASURE at the next stop.

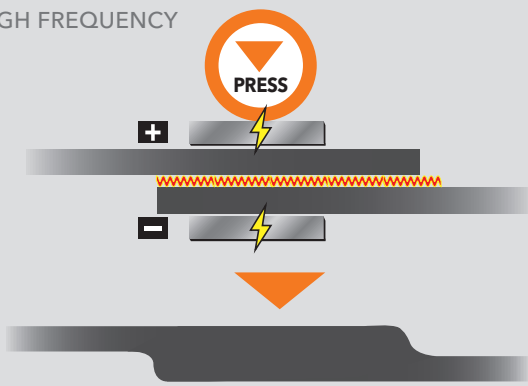

iSUP TECHNOLOGY 2022

DOUBLE CHAMBER

The heat-welded separate chambers could provide ultra stiffness and ensure extra safety for long journey exploration.

HIGH FREQUENCY

HIGH FREQUENCY WELDING

We use HF (High Frequency) Welding Technology to bond together PVC layers by eletromagnetic energy.

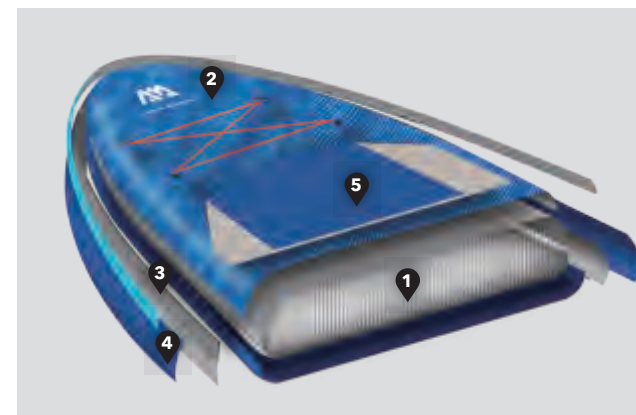

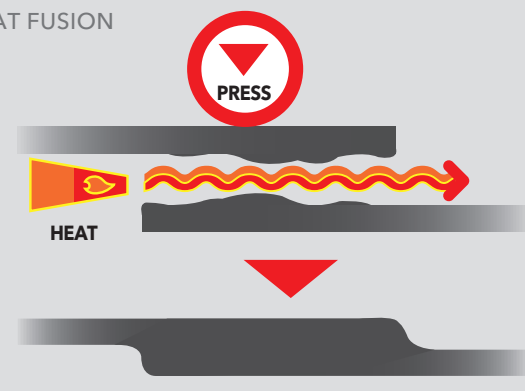

Two eletrodes create an oscillating electric field that release energy in the form of heat to make the PVC fabric melt and bond to one another. HF Welding can create very robust and hermetic seals for incredible airtightness without being harmful to environment.

HEAT FUSION

Aqua Marina's new inflatable Heat Fusion Technology uses a special heat welding process to join two separate pieces of reinforced PVC into a single solid unit.

The welding technology not only creates stronger and longer-lasting product for our customers but a better environment for the earth.

INFLATABLE SURF ADVENTURE

SURF

We've found a way for everyone to easily ride the waves with a paddle board everywhere.

The incredible new WAVE is upgraded with a narrower nose and a squared tail for better maneuverability, making it a perfect surf board for both beginners and intermediate surfers.

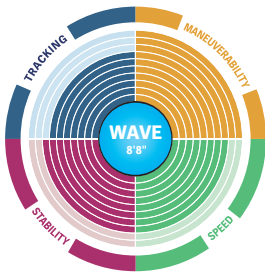

WAVE
8'8"

WAVE

COMING WITH THE STUNNING NEW LOOK, THE 2022 WAVE IS DESIGNED FOR BEGINNER TO INTERMEDIATE SURF ENTHUSIASTS WHO WANT TO EASILY CATCH WAVES AND MANEUVER SOME TURNS WHILE NOT COMPROMISING ON ITS SPEED.

To significantly enhance the wave-riding performance, we refreshed the WAVE outline by providing a narrower nose that is much lighter to throw around through maneuvers, and a squared tail to boost the turning ability. The larger nose rocker line is also improved to limit nose-diving and to catch wave after wave.

This year, we've also made some remarkable advances for WAVE's fin system. Its industry leading thruster fin set up comes with an innovative easy "press and click" fin attachment. The newly add-on side fins are shaped differently for left and right to reach quick response. No matter what the surf condition is, it meets up your needs to customize for wave riding!

SUPER TRIP

We have re-designed the SUPER TRIP series. These models enable you to share the experience of stand up paddling with a loved one, kid, pet or your best friend.

The SUPER TRIP series is in two lengths of 12'2" and 14'0", each in width of 32" and 34", which gives great stability while the long parallel outlines make them quite fast. There is a huge amount of space in the SUPER TRIP TANDEM board, so riders can carry enough belongings for a long-distance exploration. The brand-new double layered TANDEM model is supplied with two valves and two pumps which enable both riders to have some warm up before getting on the water.

TOURING KAYAK

Trekking would never be so limited to merely on land. Our touring kayaks are just designed for on-water expeditions, and allow you to take all the equipment needed for an endless adventure. Developed with paddling efficiency in mind, these kayaks are ideal for exploring calm lakes and gentle rivers.

MEMBA 10'10" MEMBA 12'10"

MEMBA

Featuring a sleek, curved and touring shape, the MEMBA series excels in tracking and speed with the extra-long waterline. Perfect for the adventurers looking for an efficient long-distance touring kayak.

Constructed of our signature AQUASHELL™ fabric technology, the refreshed MEMBA kayaks are ultra-durable with anti-UV protection for hull covers and long-lasting graphic design through advanced digital printing.

The low rocker hull design, when combined with the stiff high-pressure drop-stitch deck, results in more glide, better tracking and effortless paddling. Weighing only 13.4kg and 17kg for solo and tandem models respectively, the MEMBA can be neatly packed in the newly-designed backpack for easy storage and convenient transportation.

7.5KW / 9.9HP			

Featuring ultra-stable tunnel hull and generous deck space, this inflatable catamaran is impressive with its outstanding capacity and the ability to brave winds and waves while being high-speed. And what if you fancy a take-away camping with your family? Then just carry the full gear and enjoy the trip.

Available in 2.85m and 3.35m in length, both at 1.6m in width, AIRCAT is an ideal water safety craft and a touring boat. The unique open bow design is the favorite for fishing and diving lovers, offering a spacious standing or resting platform.

Constructed of Aqua Marina's signature High Frequency Welding Technology for tube chambers, combining Drop Stitch Light Technology applied on the air deck, AIRCAT is born to be safe, rigid, super-stable, but ultra-light. Gone are the days when a dedicated boat trailer is required. Now just pack it in the carry bag, together with all the matching accessories, it can fit into the back seat of most cars. Our new AIRCAT would be the guarantee of a day of fun and relaxation!

Open bow design for easy access.

Built-in oar lock system for easy rowing.
Oar set included.

Mounted grab handles.

Marine grade plywood transom for outboard motor.

Integrated drain valve design.

The high quality anti-collision rubber strake will get the boat well protected when there is an impact.
